

從動物科學應用機構之書面審查資料談 IACUC 的管理實務

動物用藥品檢定中心

張家禎 研究員兼主任

摘要

IACUC (機構動物照護及使用委員會) 是確保動物科學研究符合倫理與法規的核心機制，而每 2-3 年接受一次農業部的實地查核，則是對 IACUC 管理效能的客觀考評。本專題以「動物科學應用機構書面審查資料清單」為核心，分析各項次背後所要求的 IACUC 管理內容，並連結至實地查核的應對策略。透過政策文件、執行證據與動物福利等實務分享，使 IACUC 能在充足準備下，完成實地查核的工作。

Discussing IACUC Management Practices Based on the Written Review Documents of Animal Science Application

Institutions

Chang, Chia-Chen

Abstract

The Institutional Animal Care and Use Committee (IACUC) serves as the core mechanism to ensure that animal science research complies with ethical standards and regulations. The biennial or triennial IACUC Site Visit conducted by the Ministry of Agriculture (MOA) provides an objective evaluation of IACUC's management effectiveness.

This presentation focuses on the "Checklist of Written Review Documents for Animal Science Application Institutions," analyzing the IACUC management requirements behind each item and linking them to strategies for responding to MOA IACUC Site Visit. Through policy documents, execution evidence, and practical sharing on animal welfare, it enables IACUC to successfully meet MOA IACUC Site Visit requirements with thorough preparation.
